SUBHEADLINE

All drives on your computer, such as drive C or D, are automatically shared using the name drive letter\$, such as C\$ or D\$. These drives are not shown with the hand icon that indicates sharing in that indicates sharing in My Computer or Windows Explorer, and they are also hidden when users connect.

However, any user can gain access to your computer over a network or the Internet if the user knows your computer name, and the user name and password of a user who is a member of the Administrators, Backup Operators, or Server Operators group. A user who gains access to your drive over the network or Internet can view all folders and files on that drive,
